

Marvin S. Fertel

Senior Vice President and Chief Nuclear Officer, Business Operations

Marvin S. Fertel is Senior Vice President and Chief Nuclear Officer, Business Operations at the Nuclear Energy Institute (NEI). Mr. Fertel is responsible for leading NEI's programs directed at increasing the value of existing nuclear energy industry assets and for developing policy initiative and industry programmatic activities that support the development of new commercial nuclear projects.

Mr. Fertel has over 30 years of experience consulting to electric utilities on issues related to designing, siting, licensing and management of both fossil and nuclear plants. He has worked in executive positions with organizations such as Ebasco, Management Analysis Company, and Tenera. Between 1980 and 1990 he primarily focused on management consulting with nuclear utilities, assisting them in both troubled plant situations and in identifying desirable improvements at good operating plants. In November 1990 he joined the U.S. Council for Energy Awareness as Vice President, Technical Programs. With the formation of NEI in 1994, he became NEI's Vice President of Nuclear Economics and Fuel Supply.

Mr. Fertel holds a Bachelor of Science degree in civil engineering from Northeastern University, Boston; a Master of Science in civil engineering from the Polytechnic Institute of Technology, New York; and has participated in the doctorate of public administration program at New York University.
